Q-02

## Proper Forklift Techniques – Forklift attachments for Special Handling

*Know the forklift attachments available at your terminal and the proper use of each. Extra caution **MUST** be utilized when handling freight that requires the use of special attachments or tools.*

**Slip-sheet attachment**

**Basiloid Attachment**

**Boom Attachment**

**Barrel Clamps**

**Rug Pole & Fork Extensions**

Know the hand tools that are available at your terminal:

- 2-wheeler
- 2-wheel drum carts
- Pallet jack
- Glass carts
- Straps
- Hammer & nails, etc

Take the time to utilize these attachments and tools to properly handle specific types of freight and **PREVENT CARGO CLAIMS**
