

## Securing Loaded Freight on Trailers - visual

R-02

As it is very important to utilize trailer capacity on outbound loaded trailers, it is equally important to insure that ALL loaded freight is properly secured / blocked & braced.

It is critical to insure that loaded freight is secured on Outbound trailers to Prevent Damage & Claims and travel Safely.

Fill voids using air bags and empty pallets to secure loaded freight on an outbound trailer.

**Note:** Heavy Freight on Bottom – Light on Top.
