

Full Value Shipment Coverage

With

Full Value

Coverage

from LME,

you can choose

the exact level of

liability coverage

you need to cover

your shipment.

It's easy to do!

Simply notate your bill

of lading with the amount

of "Full Value Coverage"

required and for a small

additional charge, you can

have added protection and

more peace of mind for your

shipment.

- How it Works -

Write in the coverage amount you are requesting by making the following notation on the bill of lading: Full Value Coverage requested in the amount of _____. The charge for 'Full Value Coverage' will be \$.60 per \$100 of Full Value Coverage requested, subject to a minimum charge of \$50 per shipment, with maximum excess value coverage not to exceed \$100,000 per shipment. The charge will be based on the declared value amount (subject to the invoice supplied by the shipper or consignee) plus the freight charges (not included in the invoice) plus 10%.

Example: Charge for \$30,000 of Full Value Coverage:

1. Invoice amount of the product = \$30,000
PLUS freight charges of \$300 equals \$30,300.
2. Amount of coverage = \$30,300 multiplied by 110% = \$33,300.
3. Charge at \$.60 per \$100 = 333.3 multiplied by \$.60 = \$199.98
4. This charge for \$199.98 shall be added to the freight bill.

* Subject to the provisions of item 350 (and supplements) in rules tariff LMEL 110 series.

** Some commodities are excluded; see item 350 in tariff LMEL 110 series (also view item 350 series online at www.lme4me.com/RulesTariff.html).

*** Full value coverage purchased will apply to the shipments as a whole and will be prorated across the entire shipment in the event of a partial loss or damage.

**** Example shown based on item 350 charges effective September 8, 2008;
charges subject to change without prior notice, as named in rules tariff LMEL 110 series.
